E. A. Bugbee of Orange street looked out of a back window of his house early this morning and saw a full-grown doe showing off her paces on the trotting park, skipping the fences and occasionally taking a nibble. The animal apparently didn't quite like the idea of the high enclosing fence and got nervous to get out. There was only one entrance, a small gate, and the animal finally found it and trotted out to freedom. Mr. Bugbee intended to close the gate, but the animal got out before he could reach the park. The deer was later seen near the Ayer street bridge, leading to Batchelder's meadow.

### NO SEWAGE BACTERIA.

Burlington City Water Is Subjected to Analysis.

Burlington, August 30.—The report of the analysis of water taken by Dr. J. W. Courtney, health officer, in connection with the investigation of the complaint against the Burlington Rendering Co.'s plant by J. H. Sternberg, was made to the local board of health last night at a meeting, held at the city clerk's office.

At the request of Dr. Courtney, Mr. Moat attended the meeting and explained the results of the analysis. In speaking of the one taken at the mouth of the rendering plant sewer he said it was remarkably good, showing no sewage bacteria, and being practically the same as the normal water of the lake. The sample taken half way between the plant and the sewer he said showed sewage bacteria and chemical contamination, as did the sample at the intake. The sample from the mouth of the river he said was worse than the others, but was not as bad as the one taken from the mouth of the Burlington sewer.
